

POSTCARD

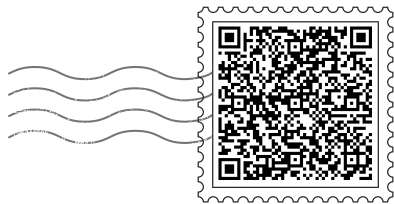

Dear Educator,

You play an important role in keeping children safe in your early childhood education and care service.

If you are worried about an adult's behaviour, actions, conversations, or interactions with a child in an early childhood setting, say something.

Call the Children's Education and Care Assurance (CECA) to talk about what you have seen or heard. You will not get into trouble for speaking up. People who speak up are protected under the law.

From CECA and ACT Child Safe
